

AVENNA CHANDELIER

INSTALLATION MANUAL

1. Safety Instructions

- Installation must be performed by a licensed electrician.
- Ensure the power supply is turned off before installation.
- Use protective gear during installation.

2. Tools Required

- Drill
- Screwdriver
- Electric wire cutter

3. What's in the Box

- Avenna chandelier base
- Suspension cables

4. Step-by-Step Installation

1. Drill holes and mount the base plate to the ceiling.
2. Connect the live (L), neutral (N), and ground wires correctly.
3. Secure the chandelier fixture to the mounted base.
4. Attach the decorative non-electric arms (as shown in the video).
5. Turn on power and test the light.

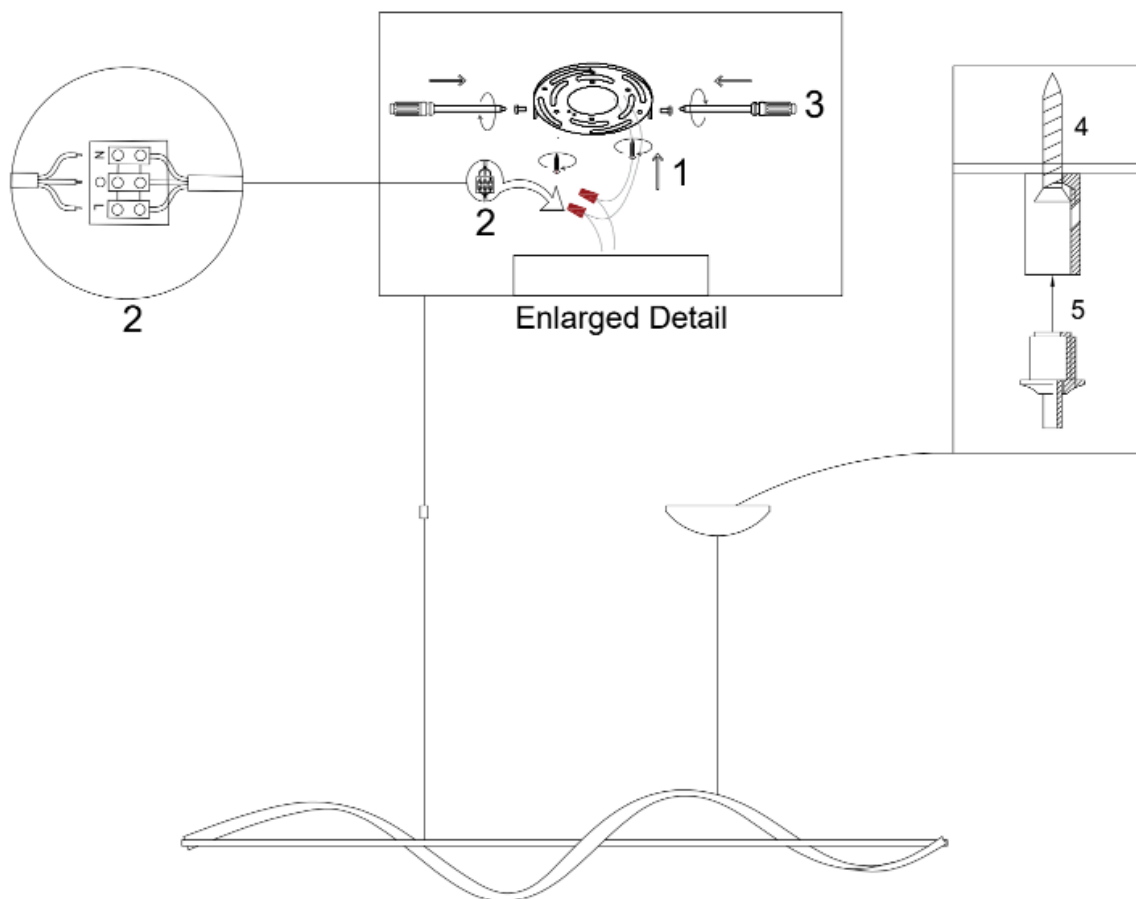

1:Fix the hanging board to the ceiling

2:Connect the lamp wires to the reserved wires

3:Fix the ceiling tray and hanging board from the side

4:Fix the hardware on the ceiling

5:Tightening steel wire fasteners

5. Maintenance

- Clean with a dry, soft cloth.
- Do not use water or harsh chemicals.
